

Remarks

Applicant thanks the Examiner for the careful examination of this application and the clear explanation of the restriction requirement.

The amended Abstract better describes the disclosure.

The amended title conforms to the claimed matter.

The amended specification includes reference to a patent and prior provisional patent application from which priority is claimed.

The new claims "particularly point out and distinctly claim the subject matter the applicant regards as his invention."

Applicant is unsure of the restriction group into which the new claims presented in this response reside, and therefore is unable to elect a specific group for further prosecution.

The application is in allowable form and the claims distinguish over the cited references. Applicant respectfully requests reconsideration or further examination of this application.

Respectfully Submitted,
/Lawrence J. Bassuk/
